

CUSTOM SLITTING UNLOCK PRECISION

At A.R. Thomson Engineered Solutions (ARTES) Inc., we specialize in custom slitting services designed to meet the unique needs of various industries.

Capabilities

Reliability

Proven design and superior components are known qualities for achieving the highest efficiency rating of similar duplex slitters on the market.

Customization

Tailored solutions for every project. Saved recipes can be recalled for automatic setting of all parameters at any time.

Rapid Changeover

Ergonomic design, excellent access to the slitting section and state of the art differential rewind system allow quick roll changeover to drastically reduce downtime.

Designed to your Specifications

Materials

Plastics. Stainless steel, carbon steel, aluminum, copper, and specialty alloys

Thicknesses

From 0.001" to 0.008", accommodating a wide range of thickness requirements

Custom Widths

Custom widths up to 36" wide to fit specific application requirements, ensuring optimal material utilization
